Age-adjusted adult obesity (≥30 body mass index) rates by local health district 2009-2021

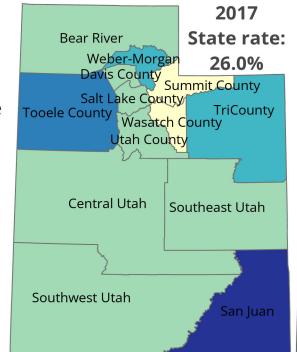

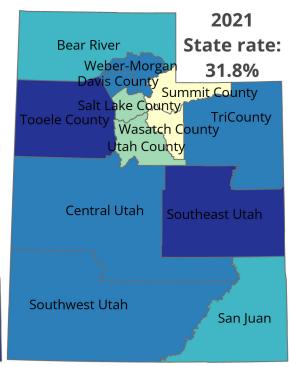

General observations:

- Summit County Local Health Department consistently has the lowest obesity rate in the state
- Obesity rates for Utah adults are on the rise

Sources: Utah BRFSS 2009, 2013, 2017, 2021. Rate are age-adjusted. Due to changes in the Behavioral Risk Factor Surveillance System (BRFSS) sampling methods, rates from 2009 are not comparable with future years.
